**RURAL SEWER CUSTOMERS (Hilltop 1, 2, 3 & Willowville Only)**

We are continuing to experience a lot of grease being dumped into the sewer system; therefore, we are having to purchase degreaser more often. In order to cut back on costs, we are requesting that all residents on the sewer system to please refrain from dumping grease down the drains. We have incurred more expenses than income for the last several years. In order to meet our expenses, we must increase the sewer rates once again. Effective January 1, 2021, the following sewer rates will reflect on your January Billing Cycle:

Residential Minimum - \$38.00 for the 1<sup>st</sup> 2,500 gal.  
Commercial Minimum - \$93.00 for the 1<sup>st</sup> 2,500 gal.

2.00/1,000 for all over 2,500 gallons
